### The Hertsmere Homelessness Strategy, 2008 - 2013

This Action Plan allows for periodic review and evaluation to take place and updates to be made. Much of the initial work within the tasks consists of research and the production of feasibility reports on the proposed schemes. The reports might disclose a general view that a proposed scheme is no longer required or is not feasible, in which case there will be no further progress in implementing it. However, no task will cease without the full consent of Hertsmere Housing Forum.

The research and feasibility assessment phase will be complete by July 2009.

The "When" column will provide information on the completion of the stages in implementing the tasks.
