LEGEND

Watercourses

- Larger Ordinary Watercourses
- Main River
- 100 yr Flood Plain
- 1000 yr Flood Plain
- Hertsmere Borough Boundary

Notes

Main Rivers are designated by Defra on a 'Main River Map'. The Environment Agency has permissive powers to carry out flood defence works, maintenance and operational activities for Main Rivers only. However overall responsibillty for maintenance lies with the riparian owner.

An Ordinary Watercourse is a watercourse that does not form part of a Main River. This includes all rivers and streams and all ditches, drains, cuts, culverts, dikes, sluices, (other than public sewers within the meaning of the Water Industry Act 1991) and passages, through which water flows according to the Land Drainage Act 1991.

The climate change allowance included in the Upper Colne Model (2010) is not up to date based in the latest Environment Agency guidance on climate change allowances dated February 2016. Therefore, the 1 in 1000 year flood outline is used to represent the climate change allowance.

This map is intended to provide a strategic overview of fluvial flood risk and should not be used to assess flood risk for individual properties.
