Neighbourhood Watch

Neighbourhood Watch is a great way to keep your home and your community safe. If you join Neighbourhood Watch you will receive regular updates and alerts from your Safer Neighbourhood Team via email, or by telephone if preferred, using Hertfordshire's [Online Watch Link \(OWL\)](#) communication system.

The messages will provide you with crime prevention advice and information about how you can help the police, for example by looking out for stolen property or helping find missing people. You will also receive invitations to local events.

Other schemes you can join
