

National Conditions

The Business and Planning 2020 Act sets out two conditions which apply to pavement licences which are granted or deemed to be granted these are: a no-obstruction condition and a smoke-free seating condition.

1 No-obstruction condition

The licence holder pursuant to the licence, or any activity of other persons which is enabled by the licence must not cause any obstruction, or deemed to be an unacceptable obstruction, of the highway.

To meet the needs of disabled people, in most circumstances 1500mm clear space should be regarded as the minimum acceptable distance between the obstacle and the edge of the footway.

(Please be aware that as per HCC Highways Department guidance, there should be sufficient space to allow pedestrians to pass and repass on the footway. Current guidance from the County Council is to allow a minimum of 3 meters, 1.5 meters per person)

The positioning of furniture should not discourage pedestrians from using the footway. The available route must be entirely clear and not pass through an area with tables and chairs;

Furniture must be of reasonable substance so it cannot easily be pushed or blown over by the wind, and thereby cause obstruction, unless measures have been taken to ensure it is kept in place.

2 Smoke-free seating condition

The national smoke-free seating condition seeks to ensure customers have greater choice, so that both smokers and non-smokers are able to sit outside, in order to protect public health by reducing risks of COVID transmission.

It is important that businesses can cater to their customers' preferences. The condition requires a licence-holder to make reasonable provision for seating where smoking is not permitted. This means that where businesses provide for smokers, customers will also have the option of sitting in a non-smoking area. Ways of meeting this condition could include:

Clear 'smoking' and 'non-smoking' areas, with 'no smoking' signage displayed in designated 'smoke-free' zones in accordance with .

No ash trays or similar receptacles to be provided or permitted to be left on furniture where smoke-free seating is identified. Licence holders should provide a minimum 2M distance between non-smoking and smoking areas.
