HC223	2020-000135	Hertsmere	Waste	Vehicle Maintenance	Hertsmere Borough Council (the Council) seeks a suitable qualified contractor to undertake Vehicle Maintenance from it's three bay workshop at its Cranborne Road depot in Potters Bar. The vehicles to be maintained include refuse collection vehicles, street cleansing vehicles, recycling vehicles and general vans. The fleet comprises a total of 47 vehicles with additional vehicles hired during busy periods. Types of vehicles within the fleet include RCVs, cage tippers, mechanical sweepers, grab lorry, and vans. The majority of the vehicles are based in the Councils Cranborne Road depot, however some are based in the Engineering Services depot in Borehamwood. In the case of these vehicles it is the Councils responsibility to ensure the vehicles are transported to Cranborne Road depot. The contract will be for a five year period with a possible two year extension. HC241		Hertsmere	Planning	Hertsmere's Sustainable Transport Appraisal and Outline Transport Studies	The work will support the emerging Local Plan and complement the existing evidence including Hertsmere's COMET Transport Model Analysis and Journey Time Analysis (2021), and Hertfordshire County Council's (HCC) existing transport data packs. This will be a front facing Local Plan focused piece of work that will be included with Hertsmere's Local plan evidence base and will be used during the Local Plan examination process. The study will provide the basis for identifying sustainable and deliverable improvements to the local transport network and services. All recommendations should help to facilitate the planned new homes and jobs, and align with the plans wider sustainable approach and policies. The study will look to address the more cumulative impacts of both existing and new development, which are likely to occur as more people travel within, between and through the existing settlements within the Borough. Consideration should also be given to the impact arising from strategic allocations within close proximity to each other, and the requirements of both national and local policy. To ensure that the distinct characteristics and challenges of each area are fully considered an Outline Settlement Transport Study for the following areas will also be required. (Bushey, Radlett and Shenley, Borehamwood and Elstree, and Potters Bar and South Mimms).	Integrated Transport Planning Ltd	3485430	No	No	No	Quote	Quote	£39,625	18th August 2021	1st March 2022	No				N

HC215		Hertsmere	Engineering	Orchard Close	Hertsmere Borough Council (HBC) wish to appoint a Contractor via their existing framework to undertake the design and construction of the following project. The project comprises of the demolition of vacant existing garages along with site clearance and the design, construction and handover of a 3 storey block of 7Nr new build flats with ancillary parking and amenity space. Site preparation, mains drainage, utility installations as well as associated external works and landscaping are also elements of the works. In addition, an existing public foul water sewer currently running through the site is to be diverted as part of a Section 185 Agreement with Thames Water. Please refer to the Flood Risk Assessment & Drainage Strategy Report in folder 2.3.8.4 for further details. Where any works beyond the curtilage of the site are to be adopted by the Local and/or Highways Authority, all such must be designed and constructed strictly to the standards and specifications set out by the adopting authority. The existing garage site and associated land is located at South of Orchard Close, Radlett, Hertfordshire. HC242		Hertsmere	Asset Management	Refurbishment of Garage blocks in various locations in Hertsmere	<p>Hertsmere Borough Council owns a large number of battery garages, which are mostly situated in Borehamwood, Hertfordshire. Other locations for garage blocks within the Borough include; Potters Bar, Bushey and Radlett. The majority of the garages are estimated to be 50-60 years old and have not benefitted from regular programmed cyclical maintenance, as a result, many are in disrepair and in need of refurbishment.</p> <p>The works will mostly consist of replacing existing roof coverings, the majority of which is corrugated asbestos/cement sheets. Replacement of up and over style garage doors, fascia's and rainwater goods. Some of the garages will require minor repairs to brickwork and concrete sections where applicable.</p> <p>The majority of the garages are tenanted although most blocks will have a number of void garages, which will not be let until works are completed. Therefore, some liaison with tenants will be necessary to facilitate the works and assist with moving garage contents if necessary.</p> <p>Contact details and correspondence addresses for tenants will be provided prior to commencing work on site.</p>	Borras Construction Limited	1520021	No	No	No		Tender-LHC Framework	invitation to tender	£246,379	14th November 2022	17th February 2023	No
