

CHRISTMAS ORGANISERS COVID GUIDANCE QUESTIONNAIRE (POST 21ST JULY 2021)

We would like to remind all Event Organisers that it is a legal requirement to undertake a suitable and sufficient Risk Assessment and ensure control measures are implemented to manage any hazards and the associated risks, including COVID-19.

Event operations should be reviewed, and consideration given to how they are implemented with a view to minimising the opportunity for transmission or infection.

We would encourage all event organisers to submit this completed questionnaire AND your Event Risk Assessment (and other supporting documents) at **least four weeks prior** to the start of the Event. This will enable Environmental Health / Safety Advisory Groups (SAGs) to assess whether suitable measures are in place. If the information requested is already readily available in other documentation produced, please reference in section 5.

Local authorities continue to have the power to place public health restrictions on businesses in cases where there is a serious and imminent threat to public health posed by COVID-19 however we want to avoid situations where it is advised that the Event should be stopped or restrictions / requirements placed upon it.

This is a generic questionnaire, and all may not be relevant to you. It is **your responsibility** to ensure that any information you give is **true and accurate**. If a question is not relevant, simply put 'N/A'.

When completing the questions, you **must take account of**:

- The people working at or supporting the event, those who you expect to attend including level of attendance overall, at any one time and vulnerabilities / disabilities.
- Others who may be affected by the event, even if they are not attending (adjacent business's / domestic dwellings, livestock etc:
- It is recommended that staff and attendees are tested prior to the event and consider how results are communicated. You may wish to have a vaccination policy which allows entry to the Event. [Testing Request](#).
