

Employment Land Call for Sites 2021 Site Questionnaire

Hertsmere Borough Council is currently identifying land available for potential future economic development over the next 15 years to inform the preparation of its new Local Plan.

To assist the Council in determining whether additional sites are potentially available, suitable, or achievable for economic development, please complete and return this questionnaire. All sites should be at least 0.25ha in size or capable of accommodating 500m² of floorspace and be for uses that support economic development, in the form of offices, industrial, storage and distribution and other employment activities which are currently defined in [Policy CS10 of our Core Strategy](#).

Completed questionnaires should be returned by email to local.plan@hertsmere.gov.uk. If you are sending large attachments, please either send the information in separate emails which do not exceed 10mb in size or if this is not possible, you should use our secure file transfer site. Details of this are available on request.

Please use a separate form for (1) each site submitted and (2) each land use or proposal. You should also include a plan clearly identifying the site boundary in red. Further information is available in our FAQs.

Please note that information on sites considered through the land availability assessment process will be openly available to the public and the information submitted will NOT be treated as confidential.

Inclusion in and assessment through this process, including through any update of the Housing and Economic Land Availability Assessment (HELAA) does not guarantee planning permission for nor imply the designation or allocation of any site for development.
