

Hertsmere Borough Council

Overview of responses from site promoters, statutory bodies and local interest groups (June 2019)

Errata Sheet

Page 92 HBC's comments incorrectly states that "the stage 1 study concluded that the site forms part of a weakly performing parcel (14). It was therefore not considered further for assessment, as those parcels were recommended for further consideration in the stage 1 study."

Instead this should read as follows:

... "the stage one study concluded that the site forms part of a moderately performing parcel. It plays an important role in preventing ribbon development along the A41, which would reduce the scale of the gap between North Bushey and Bushey Heath/Bushey Village. It was therefore not recommended for further consideration."
