Dear Resident

Oakmere Close Parking Consultation

Hertsmere Borough Council is seeking the views of residents in Oakmere Close on the parking proposal shown on the attached plan. This follows the initial consultation we carried out last year.

It is proposed that yellow lines restriction be implemented which should operate **10am to 12 noon** (part day) or **8am to 10am & 2pm to 4pm** (split day) **Monday to Saturday**. The part day or split day restriction have been identified as the most effective way of alleviating parking by non-residents as identified from the previous consultation.

The proposed scheme will help in reducing the level of inappropriate parking taking place in the area. This will improve road safety, drivers' visibility and traffic flow for essential services vehicles. The general effect of the parking scheme will be to introduce limited waiting parking restrictions.

What happens next?

Based on feedback on the preferred hours of operation, a formal consultation will be carried out to implement the final scheme design and prepare the Traffic Regulation Order (TRO).

Please complete the questionnaire and return it to us in the free post envelope provided (NO STAMP REQUIRED) by **14th May 2021**.

I look forward to receiving your response.

Yours sincerely

Tunde Ogunro
Traffic Engineer

Consultation on Parking – Oakmere Close

Name and address
