

FOI number: **HBC_FOI_20200127**
Date FOI Received: **06/02/2020**
Department: **Planning**
Title: **Conservation area maps**
Description: **A request to make available the Conservation Areas as designated in the adopted Local Plan and in a GIS compatible format.**

Request: (As Redacted sent by requestor)

I would like to make an FOI request for you to publish on your website or send to me data on the Conservation Areas as designated in your adopted Local Plan. Please publish or send the information in a GIS compatible format. I understand that your organisation must already hold this data in this format for it to have been able to produce the PDF policy maps /interactive web map that is published on your website.

Response: (Response as Redacted sent by service)

The Council is unable to share digital shape format data as this has been created using Licensed Data from Hertfordshire County Council. The reason for this is that the provision of data in digital form would potentially prejudice the owner's commercial interest and is therefore exempt under Section 43 of FOIA. GIS data is used as part of the planning process and continually updated as required. Our terms of use prevent us from sharing this with anyone who is not licensed.

If you have any queries about the processing of your request then please do not hesitate to contact me. Further information explaining the Council's process for responding to information requests together with a complaints/appeals procedure is available in our reception or via our website at:
