£25,000 – involving one business

3. How much of the money identified in the answer to Q2 has been recovered to date?

Nothing has so far been recovered

4. Where fraud was identified how many of those cases have been referred to the authorities to date?

The case has been referred

5. How much has been issued in error and to how many businesses? For each please explain what the error was.

£25,000 was incorrectly paid to one business. The grant was paid to a business whose rateable value was greater than £51,000 so they were not entitled due to officer error.

6. How much of the money issued in error identified in Q5 has been recovered to date?

£19,188

7. What policy was in place to ensure that grants were not fraudulently obtained or granted in error to businesses?

The business had to complete an on line form with various validation checks before being allowed to proceed. Once the form was completed officers carried out a number of pre-payment checks. Following payments, all businesses have been referred to our fraud team for further post payment assurance cross checks.
