Summary of Key Points

Overview

- This report contains information derived from the latest 2013/14 Revenue Outturn returns on the level of sales, fees and charges for Hertsmere as a proportion of total service expenditure (excluding capital charges). The report can act as an initial guide for further investigation into areas where the proportion of fees and charges appears inconsistent with similar authorities.

Potential Revenue Gains

- Hertsmere's income to expenditure ratio was compared to its nearest neighbour group. If its ratio was set to the top quartile, across all services, then this would generate notional revenue losses of £1.5m (including education).

Overall Sales, Fees and Charges

- Hertsmere's income to expenditure ratio was 31.5% in 2013/14. This was higher than the nearest neighbour average (of 22.2%), and was ranked 3rd highest out of 16 authorities.
- Hertsmere's income to expenditure ratio was higher than the comparable England average (of 22.4%), and was ranked 30th highest out of 201 comparable authorities.
- Compared to its nearest neighbours, Hertsmere derives a significantly larger share of its income from Planning & Development (+26.8%) and a smaller share from Highways & Transport (-17.0%).
- Between 2012/13 and 2013/14, the authority's sales, fees and charges increased by 4.1%. This compares to an average decrease of 8.7% among its nearest neighbours, and a national increase of 5.1%.

Breakdown by Service*

- In Highways, Hertsmere's income to expenditure ratio was 93.7%, lower than both the nearest neighbour average (of 122.8%) and the England average (126.4%).
- In Housing, Hertsmere's income to expenditure ratio was 41.5%, higher than both the nearest neighbour average (15.2%) and the England average (12.2%).
- For Cultural & Related Services, Hertsmere's ratio was 6.9%, lower than both the nearest neighbour average (14.8%) and the comparable England average (23.3%).
- For Environmental & Regulatory, Hertsmere's ratio was 24.3%, higher than both the nearest neighbour average (of 22.6%) and the England average (22.4%).
- In Planning & Development, Hertsmere's ratio was 113.3%, higher than both the nearest neighbour average (of 36.9%) and the England average (39.4%).
- In Central Services, Hertsmere's income to expenditure ratio was 8.5%, higher than both the nearest neighbour average (of 6.8%) and the England average (7.4%).

* Please note that these comparisons can be affected by differing authority policies, e.g. if the service is provided externally.

1. Comparator Groups

For benchmarking purposes, two sets of comparator groups are used in this analysis: (a) your authority's Nearest Neighbour group, and (b) all comparable authorities across England.

Nearest Neighbour (NN) Group

To enable a like-for-like comparison, this analysis makes use of CIPFA's statistical Nearest Neighbour groups. These identify councils with similar economic and social characteristics and groups them on a statistical basis.

For Hertsmere, the Nearest Neighbour group is shown in the table below:

Table 1 - Nearest Neighbour Group

■ Hertsmere	■ Broxbourne
■ Spelthorne	■ St Albans
■ Three Rivers	■ Waverley
■ Epping Forest	■ Tunbridge Wells
■ Reigate & Banstead	■ Brentwood
■ North Hertfordshire	■ East Hertfordshire
■ Dacorum	■ Surrey Heath
■ Woking	■ East Hampshire

National Comparator Group

When making national comparisons, it is necessary to consider the services provided by each authority. For example, authorities which provide only upper-tier services (i.e. shire counties) tend to have a significantly lower proportion of sales, fees and charges in total expenditure than those that provide exclusively lower-tier services (i.e. shire districts).

To enable national comparisons, authorities are therefore categorised into three groups, according to whether they provide (1) both upper-tier and lower-tier services, (2) exclusively upper-tier services, or (3) exclusively lower-tier services.

As a shire district, Hertsmere falls into Group 3, as shown in the table below. All national comparisons in this report are made with reference to this grouping of 201 authorities.

Table 2 - National Comparator Groups

Group	Authority Type	Lower tier	Upper tier	Fire*	No.
Group 1	Metropolitan districts, London boroughs and unitaries without fire responsibilities	✓	✓		120
	Unitaries with fire responsibilities	✓	✓	✓	3
Group 2	Shire counties with fire responsibilities		✓	✓	11
	Shire counties without fire responsibilities		✓		16
Group 3	Shire districts	✓			201

* Fire and protective services are excluded from this report, as they tend to make a negligible contribution to total sales, fees and charges.

2. Potential Revenue Gains/Losses

Overview of Potential Revenue Gains/Losses

This report assesses sales, fees and charges as a percentage of authorities' total expenditure. For simplicity, this is also referred to as the **income to expenditure ratio**. Negative income to expenditure ratios are assumed to be outliers, and are excluded from the analysis.

This section considers the notional gain or loss in revenue associated with setting your authority's income to expenditure ratio to certain benchmark levels.

Benchmark levels are set relative to your authority's nearest neighbour group, as identified in Table 2. The three levels are (i) the top quartile, (ii) the median, and (iii) the bottom quartile.

The table below shows the change in total revenue that would result if Hertsmere's income to expenditure ratio was set to one of these benchmark levels. This is disaggregated by service group. As can be seen, setting ratios to the top quartile (across all services) would result in notional revenue losses of £1.5m. Potential gains are greatest in Highways & Transport (£1.0m).

Table 3 - Revenue Implications of Alternative Income to Expenditure Ratios (£m)

Service	Top Quartile	Median	Bottom Quartile
Highways & Transport	0.954	0.362	-0.273
Cultural & Related	0.528	0.261	-0.030
Environmental & Regulatory	0.459	0.011	-0.797
Central Services	0.118	-0.317	-0.620
Other Services	0.003	0.000	0.000

Education			
Total	-1.524	-3.866	-6.224
Total excluding education	-1.524	-3.866	-6.224

Note that changes in revenue will be negative if your authority has an income to expenditure ratio that is currently above the relevant benchmark level. Figures will be blank if your authority has zero expenditure.

The figures for all services *excluding education* are also included in the table above, recognising that local authorities may have limited control over sales, fees and charges in this service area.

Revenue Profile

This section illustrates Hertsmere's potential revenue gains in more detail.

Hertsmere's revenue profile is presented in Chart 1 below. For each service, a line illustrates the relationship between its income to expenditure ratio (on the horizontal axis) and notional revenue gains (vertical axis). The larger the area under the line, the greater the potential revenue gains.

The point where the line intersects the horizontal axis indicates your authority's current income to expenditure ratio. Points to the right of this represent notional revenue gains, should your authority increase its ratio relative to its nearest neighbours. (Points to the left indicate reduced revenue, and are not illustrated on the chart).

For each service, the revenue line will reflect three factors:

- The authority's ranking in terms of ratios (e.g. top 10%, top 20% etc). Where your authority has a relatively low income to expenditure ratio, the revenue line will start towards the left of the chart. If it has a relatively high ratio, the line will start towards the right of the chart.
- The percentage variation in ratios between authorities. The more ratios change between each authority, the steeper the revenue line will appear (all else being equal).
- The level of expenditure on the service. The greater the absolute size of the budget (in £m), the steeper the revenue line will appear (all else being equal).

3. Overview of Total Sales, Fees and Charges

Sources of Sales, Fees and Charges

In 2013/14, Hertsmere received income from sales, fees and charges worth £10.428m.

Planning & Development accounted for the largest share of this income (£4.793m), followed by Environmental & Regulatory (£2.245m) and Highways & Transport (£1.152m). This is shown in the table below.

Table 4 - Breakdown of Sales, Fees and Charges for Hertsmere by Major Service Group (2013/14)

Compared to its nearest neighbours, Hertsmere derives a significantly larger share of its income from Planning & Development (+26.8%) and a smaller share from Highways & Transport (-17.0%).

Relative to the England average, Hertsmere derives a significantly larger share of its income from Planning & Development (+25.5%) and a smaller share from Cultural & Related (-13.1%).

The chart below illustrates the major difference in income sources between Hertsmere and other authorities. The chart focuses on the four major sources of sales, fees and charges for Hertsmere (with all other services grouped in the 'Other' category).

Chart 3 - Comparative Sources of Sales, Fees and Charges (2013/14)

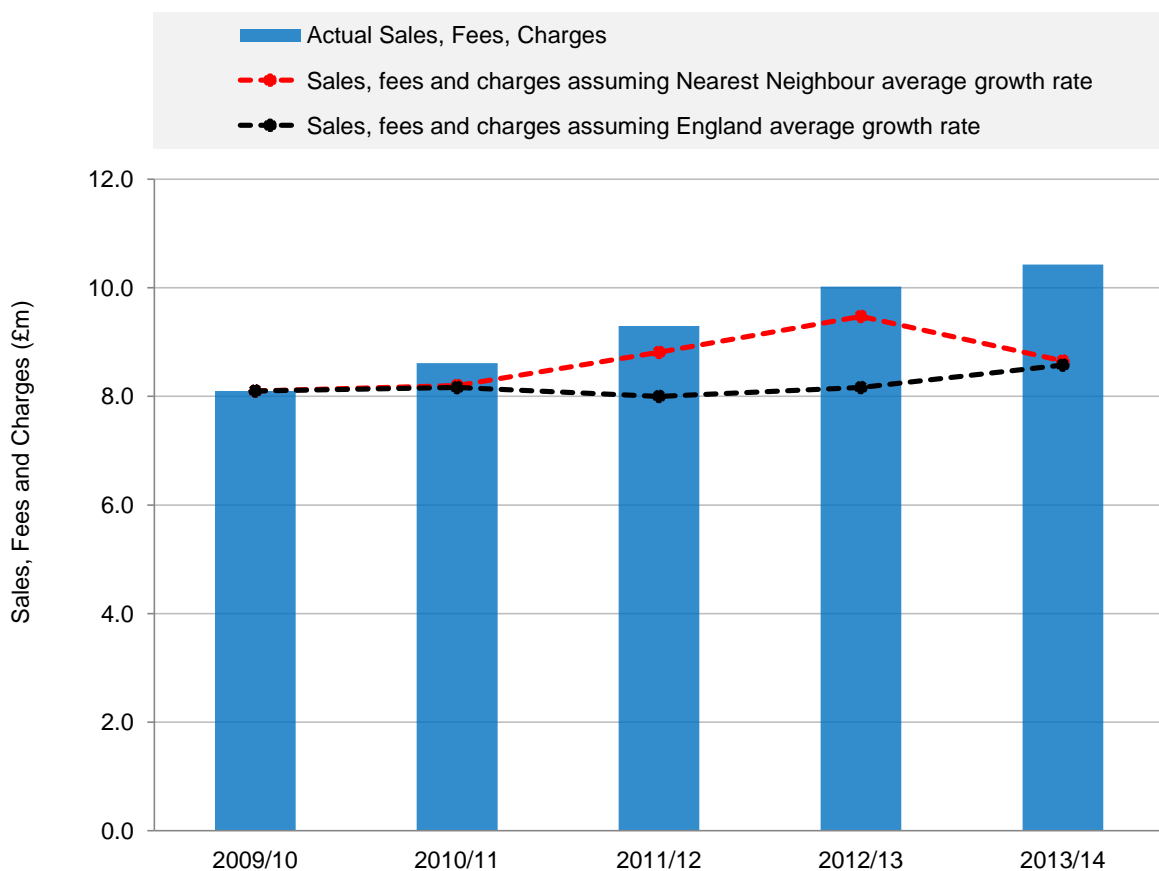

Annual Change in Sales, Fees and Charges

This section examines historical changes in sales, fees and charges. To enable like-for-like comparisons (both across authorities and between years), this excludes income from Education, Public Health and protective services.

Between 2012/13 and 2013/14, Hertsmere's sales, fees and charges increased by £0.409m, or 4.1%. This compares to an average Nearest Neighbour decrease of 8.7%, and an average national increase of 5.1%.

The chart below illustrates Hertsmere's sales, fee and charges since 2009/10. It also shows how these sales, fees and charges would have changed had they grown at the same rate as the Nearest Neighbour average and England average, respectively.

Chart 4 - Change in Sales, Fees and Charges since 2009/10*

* Figures in this chart exclude protective services, Education and Public Health.

Sales, Fees and Charges Relative to Total Expenditure

In 2013/14, Hertsmere had an income to expenditure ratio of 31.5%. The derivation of this figure is shown in the table below.

Table 6 - Income to Expenditure Ratio (2013/14)

Item	Amount
Sales, Fees and Charges (£m)	10.428
Total Expenditure (£m)	33.140
Income to Expenditure Ratio	31.5%

Compared to its Nearest Neighbour group, the income to expenditure ratio for Hertsmere was higher than the average of 22.2%. It was ranked 3rd highest in the group, as illustrated below.

Chart 5 - Income to Expenditure Ratio, Nearest Neighbour Group

Compared to other authorities across England, Hertsmere's income to expenditure to ratio was higher than the average (of 22.4%), and was ranked 30th out of 201 comparable authorities.

4. Breakdown of Sales, Fees and Charges by Service

Overview of sales, fees and charges by service

This section examines the ratio of sales, fees and charges to total expenditure for each service area, namely:

- Highways and Transport
- Housing
- Cultural and Related Services
- Environmental and Regulatory Services
- Planning and Development Services
- Central & Other Services

As was described in Section 3, the income to expenditure ratio for Hertsmere is 31.5%. This can be further disaggregated into individual services, as shown in the table below. As can be seen, the ratios range from a high of 113.3% (Planning & Development) to a low of 0.0% (Other Services).

Table 7 - Income to Expenditure Ratio*, by Service Group

Service Group	Hertsmere	NN Average	England** Average

* Figures are left blank if the ratio cannot be calculated i.e. if there is zero recorded expenditure.

** Only includes authorities in your national comparator group (see Table 2 above).

The remainder of this section examines each of these major service groups in more detail.

For the purpose of this report, each of these service groups is further disaggregated into sub-categories. In many cases, individual lines from the Revenue Outturn (RO) 2013/14 are grouped into a single sub-category to avoid excessive detail. The groupings were informed by each line's overall contribution to sales, fees and charges at the England level. Annex A provides more detail on these groupings.

Highways and Transport

For Highways & Transport, sales, fees and charges were equivalent to 93.7% of Hertsmere's total expenditure in 2013/14. This was lower than the comparable England average of 126.4%. The authority was ranked 137th highest out of 201 comparable authorities across England.

Hertsmere's income to expenditure ratio was lower than the nearest neighbour average of 122.8%, as is illustrated in the chart below.

Chart 6 - Income to Expenditure Ratio - Highways & Transport (2013/14)

Within this service, Hertsmere derived all of its sales, fees and charges from Parking Services (with a ratio of 100.5%). Ratios for the nearest neighbour group and England are also provided in the table below.

Table 8 - Income to Expenditure Ratios* - Highways & Transport (2013/14)
