Blue box collection suspended

This collection has been temporarily suspended. You can put your paper recycling in the brown bin until further notice - it will still be recycled.

Please hold off from putting shredded paper in the brown bin until the blue box collection resumes.

Please check our [service updates](#) regularly for any further changes.

Paper bins

Your blue box is collected every fortnight on the same day as your black bin.

What to put in

Items to keep out

White paper vs brown paper

Only white paper should go in your blue box. White paper is often colour printed and this is ok too. To check just rip the paper and if the fibres are white you can put it in. Brown paper and envelopes should go in your brown bin.
