

Brown Bin

Last Modified December 08, 2020

[Share this page](#)

Mixed recycling

Your brown bin is collected every fortnight on the same day as your green bin. Make sure your recyclables are empty and give them a quick rinse. If they are too dirty they may not be collected e.g. grease covered foil or plastic trays/pots with food in.

Paper recycling

There are no current plans to resume a separate collection of paper in the blue boxes, if this changes you will be notified by a hook-on on your black bin. Instead, please continue to recycle your paper in the brown bin.

Please check our [service updates](#) regularly for any further changes.

Larger brown bins

If there are five or more of you in your household and you struggle to fit all your recycling in your brown bin, you can apply for a larger bin.

What happens to my recycling?

Find out more about the journey of your recyclables from kerbside to end destination. Visit [WasteAware](#) and read some of the most frequently asked questions.

Flats recycling

Most flats have some form of recycling. It is important to only put the correct items in your recycling bin - see  [Recycling in Flats](#) for more information.

Please note: you may need to cut up larger pieces of cardboard to make it fit in the recycling bins supplied to flats. Alternatively you can take any oversized/bulky items to a [Recycling Centre](#).
