

THIS DRAWING IS TO BE USED ONLY FOR THE PURPOSE OF
ISSUE AND IS SUBJECT TO AMENDMENT

- LEGEND**
- Main Rivers covered by catchment models
 - Main Rivers not covered by catchment models
 - Larger Ordinary Watercourses not covered by catchment models
 - Hertsmere Borough Boundary

Notes

Main Rivers are designated by Defra on a 'Main River Map'. The Environment Agency has permissive powers to carry out flood defence works, maintenance and operational activities for Main Rivers only. However overall responsibility for maintenance lies with the riparian owner.

No known detailed hydraulic models covering Ordinary Watercourses are present in the study area.

It must be noted that the Environment Agency has an ongoing programme of hydraulic model updates across the country. These updates aim to ensure the hydraulic models used by the Environment Agency continue to provide the most accurate assessment of flood risk for the area and take into consideration the latest guidance/best practice. Relevant to the study area, the River Colne is in the process of being updated at the time of producing this assessment.
