Public Engagement on Existing Parking Controls

Review of Controlled Parking Zones (CPZ) in Radlett

Hertsmere Borough Council is responsible for managing its on-street parking within the borough and will be reviewing parking schemes (permit zones) in Radlett. Effective management of on-street parking can make a significant contribution to communities by reducing congestion, whilst enabling access for residents and services.

This proposal is seeking the views of all residents / businesses within the Radlett parking zones, to ensure that existing parking rules are fit for purpose and to identify any parking issues which can be addressed. The key objective of the review is to identify possible alterations to improve road safety and the operation of the parking controls to benefit residents and businesses where applicable.

A simple questionnaire is attached along with a freepost envelope (**NO STAMP REQUIRED**). Please take some time to complete the questionnaire, including any other comments and return it to us in the envelope provided. Alternatively, you can fill in the questionnaire and **email** it to parkingpolicy@hertsmere.gov.uk or online using this link [Parking Consultations - Hertsmere Borough Council](#) or using the QR code provided below:

What happens next?

We will consider all comments received and we will write to you again with a summary of all the comments and explain how the council will respond. Due to the number of responses received during an informal consultation of this size, it will not be possible to reply to individual enquiries. Please send in your response by **30th October 2026**

With thanks for your attention, we look forward to receiving your response.

Yours sincerely

Harry Branch
Traffic Engineer
