Dear Resident

Thank you for your feedback and comments following the informal parking consultation we carried out with residents in August 2025. We have reviewed all the feedback received and made some changes as a result. The most noticeable being on Herkomer Road, where we have made alterations to reduce pavement parking and increase traffic flow, whilst also maximizing parking places for residents where possible.

A clear majority of respondents expressed support for the scheme. A total of 71% of residents are in favor. Of those, 46% support the scheme as presented, and 25% support it with modifications. We have now addressed these as far as possible. A full breakdown of the results can be found on the council website at www.hertsmere.gov.uk/parking under parking consultations and traffic orders.

This will mean that vehicles parked on street, within the Controlled Parking Zone, will need to have a permit during scheme operational hours, which will operate, Monday to Saturday 8am to 6:30pm.

The proposals are shown on the drawings enclosed. Further information on the scheme can be found on the council website at www.hertsmere.gov.uk/parking

The consultations to date have established that the scheme is supported by residents. The council will now proceed to the final stage of formal statutory consultation. The statutory consultation period commences on 9th January 2026. As this is a legal process, representations of support or objections to the proposal, together with the grounds on which they are made, must be sent in writing to Traffic Engineer, Parking Policy, Hertsmere Borough Council, Civic Offices, Elstree Way, Borehamwood, WD6 1WA or by email to parking.policy@hertsmere.gov.uk quoting reference **Bushey Village 2025**.

Yours sincerely

Harry Branch
Traffic Engineer
